EXPERIENCE

Internship — Embedded AI Engineer

JUNE — JULY 2026

Delair, Labège

- **Benchmarking and optimization** of YOLOv8 / v11 models on NPU (Pi AI Camera, i.MX95): fine-tuning, INT8 quantization and real-time video inference
- **Graph surgery on YOLOv8n**: 17 → 36 FPS on i.MX95 (+112%), with a relative mAP@50 loss < 5%.
- **Embedded Linux deployment with Yocto** and real-time monitoring: FPS, NPU latency, CPU load and temperature.

Edge AI · Computer Vision · Embedded Systems

Internship — Cleanroom Operator

MAY — JUNE 2025

Lynred, Grenoble

Assembly of infrared sensors in a cleanroom.

PROJECTS

Mass Creator

Web application for composing music repertoires, commissioned by a Toulouse student organization. Integration of a third-party vision-language model (Gemini API), with regular users.

Web App · Vision-Language (Gemini) · Advanced Search · Database

Solar Tracker

Two-axis panel tracking the strongest light source: Arduino, 2 servomotors, 4 photoresistors; team project.

Arduino · C++ · Sensors · Laser Cutting

ACTIVITIES

Scout Troop Leader

12+ YEARS OF SCOUTING

Youth supervision, team, budget and logistics management.

Choir Leader & Musician

TRUMPET · PIANO

High-school choir; trumpet (3rd cycle of conservatory).
